MomentumU@ USG Course Packages

Many USG teaching centers would like to host their own online instances of MU@ USG courses to bet er support and track professional development of educators at their inst tut on. Course packages include course content packaged for distribut on as a .zip f le which may be imported into any USG instance of D2L's Brightspace learning management system.

Af er course packages are imported and installed, the inst tut on assumes control for the design and delivery of content and instruct on as well as for the enrollment and management of learners at the inst tut on.

Catalog of available MU@ USG course packages

Not all MU@ USG content is available as course packages for distribut on to USG inst tut ons. The list of available course package can be found on the to MU@ U

e Manager.

The inst tut onal MU@ USG Course Manager will:

- 1. Act as the primary point of contact between the USG OTLE and the inst tut on.
- 2. Request and receive course package fles.
- 3. Assume responsibility for the distribut on and management of course package f les at the inst tut on.

USG OTLE support for course packages

The USG OTLE will provide support for the installat on of MU@ USG course package f les and the customizat on of course content. Support includes:

- 1. Manuals for the installat on and customizat on of course packages.
- 2. Guidance for installing, editing, and customizing course content.
- 3. Contact Peter Berryman (peter.berryman@usg.edu) for support.
